Education

Islamic University of Technology <i>Bachelor of Science in Software Engineering</i>	Expected May 2027 Gazipur, Dhaka, Bangladesh
Gazipur Cantonment College <i>Higher Secondary Certificate (HSC) – Science Group (GPA: 5/5)</i>	2022 Gazipur, Dhaka, Bangladesh
B.R.R.I. High School <i>Secondary School Certificate (SSC) – Science Group (GPA: 5/5)</i>	2020 Gazipur, Dhaka, Bangladesh

Technical Skills

AI Tools: OpenAI Codex, Claude Code, GitHub Copilot

Programming Languages: JavaScript (ES6+), TypeScript, Go, C, C++, Java

Frontend: HTML5, CSS3, React.js, React Router, Next.js (App Router), Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Prisma ORM, Zod

Databases: MongoDB, PostgreSQL, MySQL, Oracle SQL

Authentication and Services: Firebase Authentication, Firebase Admin SDK, Better Auth, JWT, Stripe, Nodemailer

Tools and Platforms: Git, GitHub, Firebase Hosting, Vercel, Render, Axios

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, REST API Design, Authentication and Authorization, Software Design Patterns

Projects

Skill Bridge | *Next.js, TypeScript, Express.js, PostgreSQL, Prisma* | [🐙 Frontend](#) | [🐙 Backend](#) | [🔗 Live](#)

- Developed a full-stack tutoring marketplace connecting students and tutors through **tutor discovery, subject filtering, scheduling, payments, dashboards, and live session management**.
- Built **dedicated workflows and dashboards for students, tutors, and administrators**, including tutor availability, bookings, notifications, reviews, and document uploads.
- Integrated **Better Auth with cookie-based sessions**, protected routes, and role-based access control, along with Stripe payments and Zoom session management.

Ghor Bari | *React.js, Express.js, MongoDB, Firebase, Leaflet* | [🐙 Repository](#) | [🔗 Live](#)

- Developed a property marketplace connecting owners, buyers, and renters through verified listings, **location-based search, filters, wishlists, property comparison**, and listing management.
- Implemented **role-based access control using Firebase Authentication, JWT, and NID verification**, and administrative moderation for users and property listings.
- Engineered **real-time messaging and negotiation workflows**, email and in-app notifications, AI-powered property insights, PDF comparison reports, and system analytics.

Warranty Wallet | *React.js, Express.js, MongoDB, Firebase, Nodemailer* | [🐙 Repository](#) | [🔗 Live](#)

- Built a **digital warranty-management platform** for storing product information, invoices, warranty documents, and claim-related records in a centralized system.
- Implemented administrator and user roles using Firebase Authentication, **Firebase Admin SDK and JWT-based backend authorization**.
- Developed **automated warranty-expiry notifications** using Nodemailer and integrated Cloudinary for cloud invoice storage and Chart.js for platform analytics.

Legacy Vault | *React.js, Express.js, MongoDB, Firebase, Cloudinary* | [Repository](#) | [Live](#)

- Built a secure digital inheritance platform for preserving **important documents, final wishes, future messages, and successor access instructions**.
- Implemented **Firebase-backed authentication, protected user and admin areas, Cloudinary document storage**, and MongoDB-based vault metadata tracking.
- Developed a **successor claim and admin review workflow** with verification questions, claim approval/rejection, released vault access, and audit logging.

Shei IT | *Next.js, TypeScript, Tailwind CSS, Express.js, Responsive UI* | [Repository](#) | [Live](#)

- Built a modern agency website for an early-stage digital services brand, focusing on **responsive service presentation, clean landing-page structure, and brand communication**.
- Developed a scalable **Next.js App Router foundation** with TypeScript, Tailwind CSS, reusable layout components, theme tokens, dark mode, and responsive UI sections.
- Set up a modular **Express.js TypeScript backend foundation** with CORS, health route, global error handling, not-found middleware, and clean feature-based structure.

Certifications

Next Level Web Development <i>Programming Hero</i> Certificate pending	July 2026
SQL and Relational Databases 101 <i>IBM Skills Network</i> Certificate	April 2026
TypeScript Basics <i>Simplilearn</i> Certificate	April 2026
Complete Web Development Course <i>Programming Hero</i> Certificate	February 2026

Achievements

Finalist – USAII Global AI Hackathon 2026 <i>Advanced to the final round of a global virtual AI hackathon with 6,079 participants.</i>	June 2026
Winner – Next Byte Hacks: January 2026 <i>Awarded winner in an online hackathon with 647 participants.</i>	March 2026
Black Belt – Programming Hero <i>Earned Black Belt distinction after completing Level 1 Web Development and SCIC.</i>	February 2026
